

A Weekend

Women's Retreat!

Encouraging Women to Embrace their Roles in Healing our World

May 19th and 20th

9:30am ~ 4pm

The only way to mend this broken world is to heal our hearts. The power of our collective feminine wisdom is coming closer. It's time to re-awaken this power within nurturing circles that we co-create. I mentor women to find new ways to re-build their intuition and strength. Retreat members are coached in the work of integrating mind, body and spirit, and in creating ever-widening circles of support . . .
